Dear Maret,

Re: Alexander Technique Centre, Estonia (Abridged version)
(Toompuiestee 9-8 / Mürivahe 17-1, Tallinn)

I am pleased to confirm that Council has approved your application to become a Head of Training of the above training course.

Please do not hesitate to contact me or anyone within STAT if you or your students require any information or help. I hope that you will keep up regular contact with sources within STAT.

Along with the approval come some requirements, which are now standard practice for new approvals.

Requirements:

The approval is conditional on you conforming with all the current STAT requirements and guidelines including those expressed in the Training Course Practice document, Moderators Handbook, Rules of STAT and the Code of Conduct. Students on approved training courses are subject to moderation, usually in the 6th and 9th terms. In return, STAT has an obligation to accept your graduates as eligible for membership with the rights and protection which this implies.

Your approval as Head of Training is specific to the above Training Course and as described in your application and is not transferable in location or person. Should there be any changes to the proposed course you will need to inform the Training Course Committee and the STAT Chair. Significant changes may well need approval.

It remains for me to say congratulations and best wishes for the future from me and the Council.

Yours sincerely

Sue Fleming
Chair of STAT
